## Career Objective

---

To leverage my expertise in UX design and interactive technologies to create engaging and user-centric digital experiences. I aim to contribute to innovative projects where I can apply my skills in user research, wireframing, prototyping, and usability testing, while continuously growing as a designer and enhancing overall user satisfaction.

## Education

---

**Koneru Lakshmaiah Education Foundation** *June 2022 - Present*  
*Computer Science Engineering (Specialization: Game Development & UX Design)*

- CGPA: 9.56 / 10.0
- **Relevant Coursework:** Design Thinking and Innovation, User Experience (UX) Design, Adaptive Software Engineering

**Narayana Jr College** *June 2020 - May 2022*  
*Intermediate MPC*

- Percentage: 84.7

## Projects

---

### UX Case Study | Zudio Shopping App Redesign

[Prototype Link](#) [🔗](#)

- Conducted brand research on Zudio and analyzed user expectations to design a user centric visually appealing interface using Figma for high fidelity prototypes aligned with modern design principles.
- Designed interactive loading animations and microinteractions improving perceived usability and creating a more engaging digital shopping experience.
- Created a prototype showcasing a streamlined navigation flow enhancing usability and ensuring a smooth experience.

### Live Project | Website Design & Development for Mayavi

[Website Link](#) [🔗](#)

- Assisted in crafting a visually engaging and user-friendly design in Figma, ensuring consistency, responsiveness, and smooth interaction across devices.
- Enhanced the club's website by applying Tailwind CSS for modern layouts and integrating a Headless CMS for dynamic updates, resulting in a more adaptive and interactive browsing experience.
- Collaborated with team members to translate requirements into design solutions, ensuring alignment with club goals and visual identity.

## Skills

---

### Technical Skills

UI/UX Design	Wireframing, Prototyping, User Research, Interaction Design
Design Tools	Figma, Adobe Illustrator, ProtoPie
Web Development	HTML, CSS, React, Spring Boot

**Interpersonal Skills**    Empathy, Collaboration, Conflict Resolution, Team Management, Adaptability

## Extra Circular Activities

---

### Mayavi Technology Club

*Director of Technology for the student led Game Development club*

- Managed technical projects, organized events and hackathons for 150+ students, ensuring seamless execution and engagement.
- Led sessions for over 200 peers to improve their proficiency in Figma and deepen their understanding of core design principles, fostering a collaborative learning environment.

## Certifications

---

### LinguaSkill | Cambridge English Certification

- Achieved a score of 174/180 on the Linguaskill exam, reflecting a high level of proficiency on the Cambridge English Scale.

## Achievements

---

- Secured a 2 lakh Rupees undergraduate scholarship from the Reliance Foundation, awarded to only 5,000 recipients annually, highlighting exceptional academic achievement.
